Relevant Work Experience

Rose Digital   New York, NY
Junior Full Stack Engineer   Jan 2019 - July 2019
Rose Digital is a minority-owned digital agency providing web + mobile apps
for Fortune 500 companies. I had two pretty big clients in my time at Rose
Digital: AirBnb and New York Lottery(via McCann NYC). With AirBnb I
got to attend daily standups with the Seattle team as we developed custom
widgets for an enterprise-grade headless CMS that would handle their internal
Help Center. For New York Lottery I helped build the front end of an SSO
web app used by millions of New York Lottery users. It was a particularly
complex application that would simultaneously consolidate separate databases
of user data and verify those users against an IDDW service. I also got to build
the company's next E2E WebdriverIO framework using SauceLabs Tunnels.
Additionally, the company had been exploring the AR space for some time, and
so I built various brand-tailored Web AR apps using Aframe, 3.js + 8th Wall.

TheBookingNinja.com   San Francisco, CA
Company Coder   Mar 2017 - Dec 2018
Booking Ninja is a startup dedicated to handling clients in the tourism
industry's online bookings and operations 24/7. We handle 40+ clients in over
6 states, spanning various time-zones. Additional to my role as an agent,
I was the engineering solutions provider for the entire company. Using
basic Bootstrap templates & the Talkus.io API I built and maintained all of our
clients' booking portals from the ground up. I also developed a branded
Slack-integrated Node app for handling the company's incoming calls.

SBS/MegaTV   Guaynabo, PR
Avid Editor   Apr 2015 - Jun 2016
Responsible for the transcoding and final cut of the archive footage show
La Bóveda del Gangster with Tony Sánchez. Worked on my own self-directed
workflow to produce 7 weekly broadcast-ready episodes.

Education

Fullstack Academy of Code: WDF 1804   New York, NY
        A 13-week immersive web development and software
        engineering fellowship sponsored by the NYC Tech
        Talent Pipeline. Has an acceptance rate of 2.5%.
Loyola University of New Orleans   New Orleans, LA
        Bachelor of Arts in Philosophy

Skills

Windows/OSX/Linux Compatible
Comfortable w/ Test-Driven & Agile Dev

Proficient:
    Javascript (ES7)
    React, React-Redux
    HTML, CSS/SCSS
    Node + Express
    PostgreSQL, Sequelize
    Firebase
    Ajax/Axios
    Git
    Webdriver/Mocha/Chai (TDD)
Knowledgeable:
    React Native
    SQL + NoSQL
    TensorFlow.js
    Jasmine + Enzyme (TDD)
Some experience:
    Ruby + Python
    Xamarin
    Mongo
Other:
    Peek + FareHarbour (booking software)
    Vectorworks (architectural modelling)
    Avid Media Composer (proficient)
    Adobe Premiere Pro (proficient)
    Adobe CC Suite (knowledgeable)
    G.V. Edius 7 (proficient)
    Final Cut Pro (competent)
    Cinema 4D (competent)

Languages:
    español   (native speaker)
    english   (native speaker)
    français   (conversational)
    italiano   (novice)
